What some past participants said...

“Not being able to speak for an extended period of time makes you concentrate harder and get more out of the experience. Being able to communicate with different Deaf people in a casual setting was a great way to learn”

“It was a real experience of a no-voice environment”

“I feel more comfortable signing and understanding others”

“Great chance to develop new skills”

“Now I can’t wait to go to the Auslan Only Weekend!”

“Great to have exposure to lots of Deaf people, different signing styles, etc.”

“An opportunity to meet Deaf people and observe how they interact”

“Presenters and volunteers were very patient, which was great”

The volunteers and presenters “were all friendly and willing to repeat things again for us, they put up with our slowness”

“Very friendly and welcoming atmosphere”
